ALI RAZA

SUMMARY

I am a full-stack PHP developer capable of multitasking and completing large-scale projects in a short period. I am looking for exciting projects (short-term/long-term) to apply my knowledge and skills while building up and growing your business. I am developing stable, maintainable, and scalable server-side applications because I am using best practices only. In addition, I am evaluating existed application code and suggest possible optimizations, and adopting best practices. PHP Frameworks: Laravel

EXPERIENCE

Full Stack Laravel Developer
Applis Technologies | USA | March 2021 - June 2023

- Created database schema for the projects
- Created AWS architecture with Laravel including continuous integration & continuous deployment.
- Created secure & high-end REST API for the mobile applications which focuses on scalability too.
- Created custom dashboards with Laravel & Vue.js for the app's statistics.
- Managed both back-end and front-end aspects of development process.
- Completed code debugging and implemented fixes to resolve problems based on priority system.
- Communicated issues, risks and concerns to management and offered solutions and mitigation strategies.
- Produced high-quality code artifacts that conformed to standards and best practices.
- Assisted other developers with coding, troubleshooting and debugging.

Full Stack Laravel Developer
Mskkn LLC | Mascat, Oman | September 2021 - December 2021
